

THE ON-SITE FITTING ADVANTAGE

Trying to outfit a large number of employees with comfortable slip-resistant footwear that they'll actually wear?

MOBILE SHOE STORE COVERAGE AREA

Our shoe stores on wheels bring the retail experience directly to your location, providing your associates with a professional fitting and product recommendation for their specific needs. With more than 1,200 styles to choose from most employees will leave the SR Max® Mobile Shoe Store with new shoes in hand. Actually, most are so excited they wear them out of the truck!

Don't work on the East Coast? No problem. Our Safety Footwear Specialists travel throughout the US. They'll come to your location with a variety of styles suited to your needs. During the event they provide professional fittings and specific product recommendations for your team, and can place orders on their behalf. Most styles ship within 48 hours.
